

HYLAND c

Advantages:

- Medium early hybrid wheat with excellent early vitality
- Baking quality even at low protein content
- Favourable for intensive and extensive cultivation

Cultivation:

Recommended preferable after forage crops. Sceptible to chlortoluron.

Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

Plant Development

Vitality

Winter hardiness medium to high

Drought resistance high to very high

Plant Health

Quality

HYLAND c

Plant development and vitality:

Ear emergence	
Maturity	
Winter hardiness	medium to high
Drought resistance	high to very high

Yield structure:

Ears/m ²	
Grains/ear	
TGW	

Sowing:

Time of sowing	early to normal sowing
Seed rate	compared with line varieties half number of grains/m ²

Straw:

Lodging resistance	
Plant growth regulator	locally adapted

Disease resistance:

Mildew	
Septoria leaf blotch	
Yellow rust	
Brown rust	
DTR	
Fusarium	
Eye spot	

Quality:

Hagberg / Falling number	
Zeleny / Sedimentation value	
Protein content	
Flour extraction
