

# ABBA 2-row

## Advantages:

- High yield, 3% above best standard variety
- Early grain filling, short straw
- Registered in DE and FR

## Cultivation:

Suitable for all european countries, especially continental climates with shorter vegetation time

## Short profile:

---- = very low resistance/early/short,

++++ = very high resistance/late/long

### Plant Development

### Vitality

### Plant Health

### Quality

## ABBA 2-row

Ear emergence	
Maturity	

### Yield structure:

Ears/m <sup>2</sup>	
Grains/ear	
TGW	

### Sowing:

Time of sowing	beginning of March until middle of April
Seed rate	locally adapted

### Straw:

Plant height	short
Lodging resistance	
Necking resistance	
Plant growth regulators	in EC 37-47 combined with leaf protection

### Disease resistance:

Mildew	
Net blotch	
Rhynchosporium	
Brown rust	
Plant protection	One preventive application from EC 39 against leaf spots and brown rust. No treatment against mildew, due to Mlo-resistance

### Quality:

Grading (> 2,2 mm)	
Grading (> 2,5 mm)	
Hectolitre weight
